A WORD FROM US

PerfectSwell® Hainan is the world's only surf pool located on a tropical island. The Dunes at Shenzhou Peninsula is ranked China's #2 by Golf Digest — a coastal links shaped by sand dunes, ocean wind, and the South China Sea. Mission Hills Blackstone is ranked China's #1 and recognized by Golf Digest as a World Top 100 course — one of the world's rare black-lava championship courses, where Tiger Woods and Rory McIlroy played head-to-head.

Together, they make this one of the best surf-and-golf experiences in Asia.

THE SURF

World's only surf pool located on a tropical island.

The pool is powered by PerfectSwell®, one of the most advanced surf pool systems in the world. What makes it special is the control over the wave itself. Throughout the day, the pool can run different wave types for different levels — soft, forgiving waves for beginners, clean open-face waves for progressing surfers, and steeper, faster sections for advanced riders. It is not just about having a surf pool; it is about having waves with real shape, speed, and variety, set inside a tropical island resort.

The Essential trip includes six PerfectSwell® sessions (shared between two), professional video coverage, and access to boards matched to your level and the day's wave type. Surf in the morning, golf in the afternoon, beach for the rest.

A coastal links shaped by sand dunes, ocean wind, and the South China Sea.

Few golf courses in China have a setting like The Dunes at Shenzhou Peninsula. Built along the coast and shaped by natural sand dunes, ocean winds, dramatic bunkers, and wide-open views of the South China Sea, it delivers a true links-style experience with a tropical island edge. Designed by Tom Weiskopf and Phil Smith, the course feels raw, cinematic, and deeply connected to the landscape — the kind of place where every hole has its own sense of drama.
